INNOVA

**RAISES THE EXPECTATIONS,
AND EYEBROWS.**

The best things known to man are made in Germany. Similarly, the Innova collection is made of Rohleder Leather that's crafted out of rawhide or what is commonly featured in Germany as untanned leather. The Mild Grains give the leather a raw trend that's second to none, whereas Natural Milling glorifies the leather and raises the expectations, at least by a few notches. This is followed by an Extra Soft Touch Finish that helps the leather retain its original grains and gives it a smooth feel.

ESTEEM

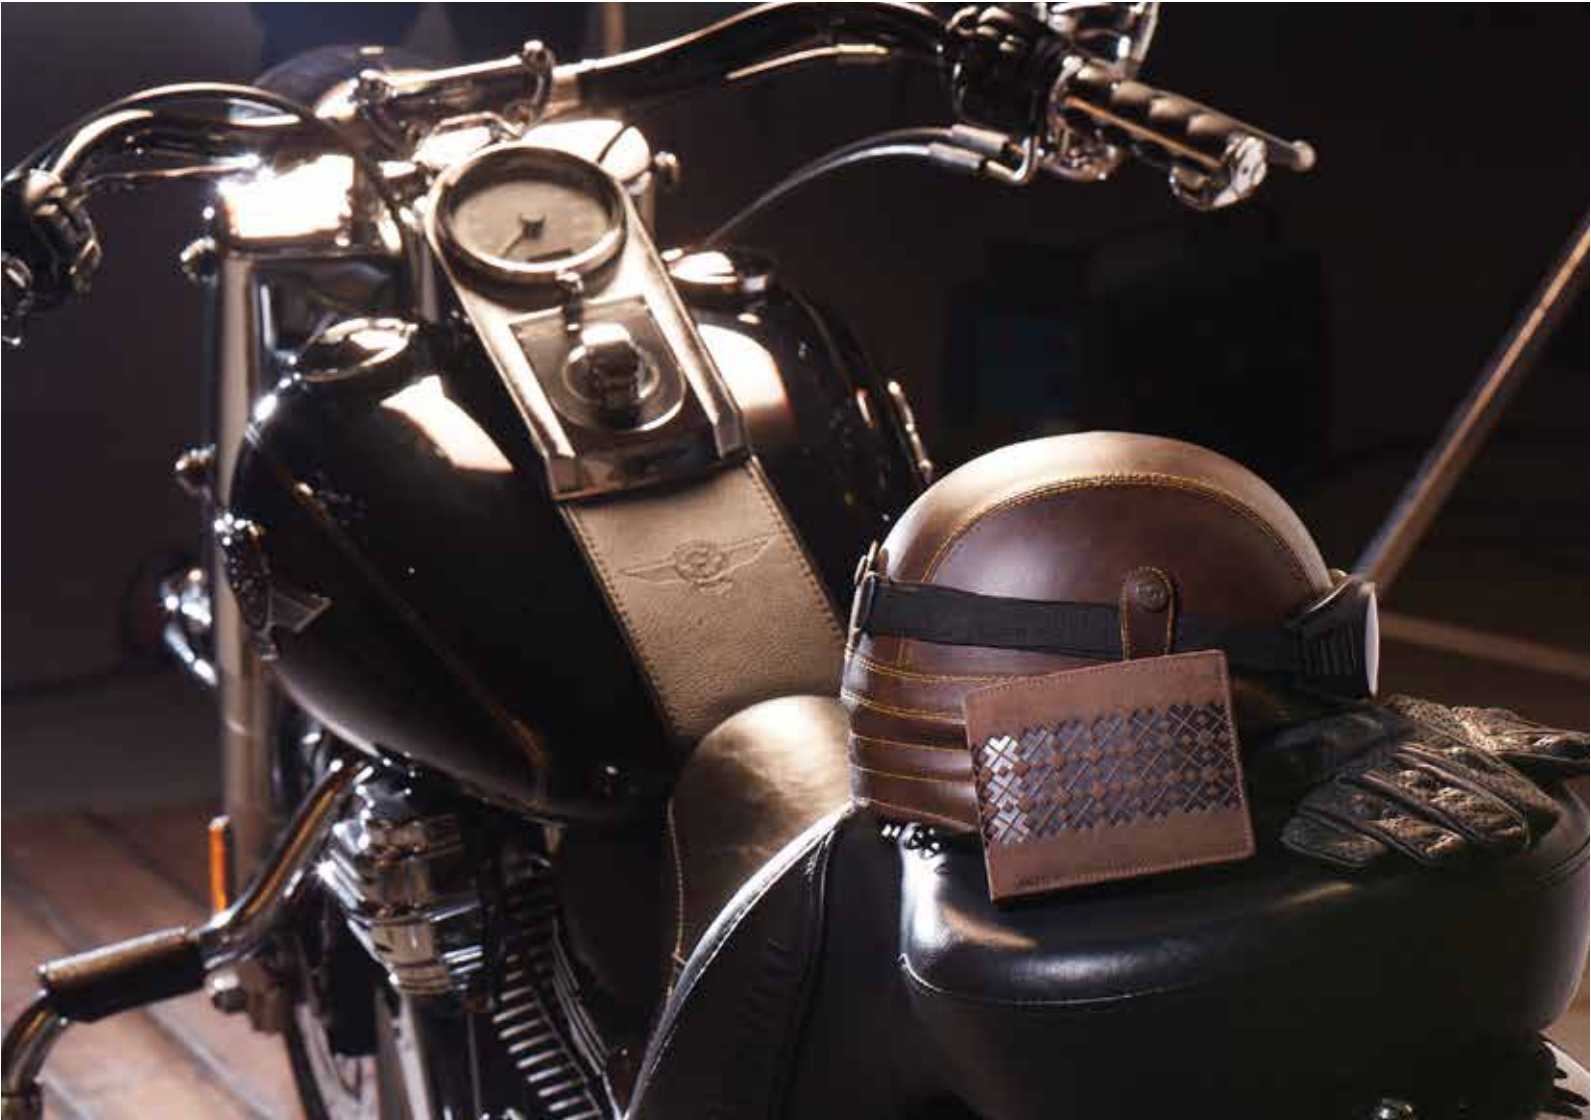

IT'S A CHARMER OF A DIFFERENT KIND.

In the Esteem collection, we have two patterns and it's aching to find which one is really better. Because every accessory created out of it, has its own charm.

The Kozik Leather is nothing but vegetable tanned leather that's known to inherit a finish so natural that you will not trust your own eyes. It really evens out the creases and makes the surface plain and charming.

The Sporleder Leather Radio on the other hand, is specially processed to give it a distressed hunter leather feel that many crave for.

STYLES CHANGE,
BUT CLASSICS STAY CLASSICS.

It's like a perfume, Decuir Leather. You can get a whiff of it from a distance. After all, old world charm is old world charm. Made from the finest Vegetable Tanned Leather, it scores over the rest in its appeal, its royal lineage and its minimalistic style. If that's wasn't enough, its Natural Finish is likely to draw a second look, whether it's a party, a presentation or a leisure tour.
